

SUGALI RAHUL NAIK
B.Tech. - Electrical & Electronics Engineering
Ph: +91-7672039975
Email: 23rahul54@gmail.com
Ballari, Karnataka, India - 583101

BRIEF SUMMARY

Enthusiastic and technically strong fresher with a solid foundation in Python, Java, and problem-solving, eager to contribute to innovative engineering solutions. Dedicated to continuous learning, applying technical skills to real-world challenges, and supporting the organization's growth while building a long-term career in the core domain.

KEY EXPERTISE

Java HTML5 CSS Javascript Github SQL React.js Node.js MongoDB Express.js
Good at my core concepts Adaptable to any situations Good in problem solving skills Strategic Thinking

EDUCATION

Ballari Institute of Technology and Management B.Tech. - Electrical & Electronics Engineering Percentage: 84.50 / 100	2022 - 2026
Sri Venkateshwara Junior College, Rayadurg 12 th BIEAP Percentage: 65.80 / 100	2021
Sree Vinaya Sree Vidyanikethan E/M High School, Rayadurg 10 th BSEAP Percentage: 93 / 100	2019

PROJECTS

Power generation using Speed Breaker Mentor: Prof Rajalakshmi Team Size: 4 Key Skills: Renewable Energy Mechanisms Power Power generation through a speed breaker refers to a concept where the kinetic energy of vehicles driving over a specially designed speed breaker is captured and converted into electricity, essentially using the force of the vehicle's movement to generate power through a mechanical mechanism like a rack and pinion system, which then turns a generator to produce electricity; this is considered a potential source of renewable energy, particularly in areas with high traffic density.	20 Nov, 2024 - 02 Jan, 2025
